Renewable Energy Report – EcoGreen Ltd.
Company: EcoGreen Ltd.

In 2023, 85% of our total energy usage came from renewable sources.

We are certified by Green-e and purchase Renewable Energy Certificates (RECs) for our non-solar energy needs.

Our rooftop solar installation generated 210 MWh of clean energy in 2023.

Additionally, we are enrolled in a green tariff from PG&E to ensure all grid electricity is clean.
