♻ Waste Management & Diversion Report — 2024
Company: Patagonia Industries

Total Waste Management (2023)

In 2023, Patagonia Industries generated 22.5 tons of total waste, of which 18.5 tons were successfully diverted through recycling and composting programs.

This resulted in a waste diversion rate of 82%, aligned with our sustainability goals.

Recycling Breakdown:

Recycled 15 tons of plastic

Recycled 8 tons of paper

Recycled 4 tons of cardboard

We are proud to be TRUE Zero Waste certified, confirming our commitment to sustainable materials handling and landfill avoidance.

This certification was awarded in compliance with the U.S. Green Business Council’s TRUE program.

G&E to ensure all grid electricity is clean.
